INTERNATIONAL YEAR OF
MILLETS
2023

INTRODUCTION

The 'Eat Right India' movement was launched by the FSSAI with the goal of promoting healthy and sustainable diets through a coordinated multi-sectoral approach. This movement focuses on young people since food habits are formed early in life and are difficult to change thereafter. To bring about a sustainable change in the dietary habits of children, the 'Eat Right School' program uses food as a pedagogical tool.

As part of the 'Eat Right School' program, the 'Eat Right Creativity Challenge' (ERCC) aims to tap into the creative talent of students to instill healthy dietary habits. This competition encourages schools to create an environment of healthy and safe food and engage, excite, and enable students to adopt healthy habits in food and nutrition. The ERCC has been conducted in multiple phases, with each phase having its own unique theme.

Recently, to commemorate 75 years of India's Independence, the ERCC featured three categories of competitions around healthy eating, including Poster making, Rangoli competition, and Bulletin board decoration.

The United Nations has declared 2023 as the International Year of Millets, and the FSSAI is taking this opportunity to promote millets as a healthy and sustainable dietary choice. The Eat Right Creativity Challenge Phase -04 is being launched to mark the celebration of the International Year of Millets. This competition will be held from 16th October 2023 – 26th January 2024 and will include four different categories of competitions to gauge students' knowledge and awareness of millet. These categories include a Poster competition, a Rangoli competition, a Slogan competition, and an Essay competition. Each category aims to raise awareness about the nutritional and health benefits of millets among school students in creative ways.

India is honoured to be at the forefront of popularising Millets. Miller consumption furthers nutrition, food security and welfare of farmers

THE THEMES OF THE COMPETITION

1

Poster Competition - Benefits of Millets (Shree Anna)

Millets are packed with dietary fiber and are a great source of essential nutrients. Millets are also known for their prebiotic properties that support good bacteria in the digestive system. Create a poster that highlights the health benefits of millet and promotes its consumption as a part of a healthy diet.

Rangoli Competition – Millets (Shree Anna), an indigenous grain

Millet is known for its nutritional value and sustainability. It is a healthy cereal that comes in different colors such as red, white, yellow, or gold. To create awareness about the significance of millets, students can use rangoli as a medium to showcase their creativity. The rangoli designs can showcase the unique characteristics of millets, such as their small size, rounded shape, and different colors.

2

3

Slogan competition - 'Millets (Shree Anna) - The Superfood'

It aims at encouraging students to create innovative and catchy slogans to promote the consumption of millets. The slogans may highlight the importance of millets as a healthy and sustainable dietary choice, emphasizing their low water and input requirements, and high nutritional value.

Essay Competition - 'Millets (Shree Anna) – The food of future (250 Words)

It is designed to encourage students to explore the various aspects of millets, including their nutritional value, health benefits, and role in sustainable agriculture. Students may highlight the importance of millets in promoting food diversity, enhancing nutrition, and improving the health and well-being of individuals and the planet.
